

*To the prime minister of Canada Mr. Justin Trudeau, After attempts by Christianne Boudreau over past years to receive a response from the government of Canada regarding the issues related to her son Damian Clairmont, issues relating to de radicalization and now her passport and 12 year old sons passport suspensions leaving them in another country. Christianne was granted permission by the Canadian courts to move and travel internationally as she saw fit since there was no father listed on birth certificate since emails letters and calls proved unsuccessful for her as not only her brother but as a member of a large % of the population who support world peace and peace efforts. I'm asking publically with all respects for christianne to receive an honest an direct response to her inquiries and to please reinstate their Canadian passports allowing her with Lucas the choice of where they live and travel internationally enabling her to continue her peace efforts immediately so she can continue educating and saving lives around the world. Our way of life depends on peace it has to be promoted personally speak or meet with Christianne Boudreau in support to discuss her international efforts towards peace, she has the strength and the heart we can all learn from Mr. Trudeau, Christianne is a Canadian citizen a mother raising a family who has been actively working on world peace efforts to help people because she cares. without unity you can't have world peace and without communication you can't achieve unity please communication and return their passports to show your support for someone working towards a better way of life for humanity. Thank you!*
